Server Check URLs

Studio OS demo on **www.interiors.devnixplus.com**. Click any link to open it.

1. Images and files

Checks the nginx /static/ and /media/ fix.

URL	What to expect
https://www.interiors.devnixplus.com/media/demo_photos/apartment-00.jpg	A photo opens (404 = wrong nginx path, 403 = folder permissions)
https://www.interiors.devnixplus.com/static/css/studio.css	CSS text shows

2. Domain and redirects

URL	What to expect
http://interiors.devnixplus.com	Redirects to https://www.
http://www.interiors.devnixplus.com	Redirects to https://www.
https://interiors.devnixplus.com	Redirects to https://www.

3. Public website

Every page should show its photos.

URL	What to expect
https://www.interiors.devnixplus.com/	Home page
https://www.interiors.devnixplus.com/demo/	Demo studio website
https://www.interiors.devnixplus.com/portfolio/	Portfolio with project photos
https://www.interiors.devnixplus.com/services/	Services
https://www.interiors.devnixplus.com/about/	About
https://www.interiors.devnixplus.com/style-quiz/	Style quiz
https://www.interiors.devnixplus.com/estimate/	Cost estimator
https://www.interiors.devnixplus.com/book/	Booking form: submit once (CSRF check)
https://www.interiors.devnixplus.com/contact/	Contact form: submit once (CSRF check)
https://www.interiors.devnixplus.com/faq/	FAQ
https://www.interiors.devnixplus.com/privacy/	Privacy (also used by the Docker health check)

4. Login, studio and portal

Demo logins: owner / designer / client, password demo12345. The admin login uses ADMIN_PASSWORD from the server .env.

URL	What to expect
https://www.interiors.devnixplus.com/login/	Login works (CSRF check)
https://www.interiors.devnixplus.com/studio/	owner: dashboard
https://www.interiors.devnixplus.com/studio/leads/	owner: leads board
https://www.interiors.devnixplus.com/studio/projects/	owner: projects

URL	What to expect
https://www.interiors.devnixplus.com/studio/bookings/	owner: bookings calendar
https://www.interiors.devnixplus.com/studio/tasks/	owner / designer: tasks
https://www.interiors.devnixplus.com/studio/quotations/	owner: quotations
https://www.interiors.devnixplus.com/studio/invoices/	owner: invoices
https://www.interiors.devnixplus.com/studio/reports/	owner: reports
https://www.interiors.devnixplus.com/studio/assistant/	owner: AI assistant
https://www.interiors.devnixplus.com/portal/	client: portal overview
https://www.interiors.devnixplus.com/portal/designs/	client: design photos
https://www.interiors.devnixplus.com/portal/documents/	client: documents
https://www.interiors.devnixplus.com/admin/	admin: Django admin

5. Uploads

In the studio, open a project and upload a photo or document, then check that it displays. This confirms new uploads reach docker-data/media and are served by nginx.
